- B. Have circumstances changed sufficiently since the adoption of the comprehensive plan to justify the proposed change? If so, the changed assumptions or new information should be described in sufficient detail to enable the Planning Commission and City Council to find that the land use designation or other sections of the plan should be changed. Examples of the underlying assumptions include expected population growth, utility or roadway capacities, available land supply, or demand for land with the existing or proposed land use designation.
- D. Does the proposed amendment promote a more desirable land use pattern for the community as stated in the goals and policies in the comprehensive plan? If so, a description of the qualities of the proposed plan amendment that would make the land use pattern more desirable and/or would result in less environmental impact should be provided in sufficient detail to enable the Planning Commission and City Council to find that the proposed amendment is in the community's long term best interest.
