**A RESOLUTION OF THE LYNDEN CITY COUNCIL ADOPTING AN  
UPDATE TO TABLE 8 OF THE TRANSPORTATION PLAN FOR THE  
CITY OF LYNDEN**

WHEREAS, the City of Lynden is required to develop a comprehensive plan under RCW 36.70A and a Transportation Plan is a required element of said plan; and

WHEREAS, the City of Lynden adopted its Transportation Plan in 2004 and this Transportation Plan included Table 8 that describes the planned transportation improvement projects and programs; and

WHEREAS, the City of Lynden uses Table 8 to identify projects that are eligible for the use of Traffic Impact Fees collected from development projects; and

WHEREAS, the City Council determined that it was an appropriate time to update Table 8 to reflect that certain projects have been completed and new projects should be included in the Transportation Plan to account for the changing community; and

WHEREAS, the City Council hereby enters the following findings:

1. The City of Lynden is desirous of securing for its residents an attractive living environment and high quality of life; and

Allowing further development within the City of Lynden without planning for safe and efficient transportation facilities, including streets, pedestrian and bicycle facilities would have a significant adverse effect upon the environment within the City of Lynden and on the health, safety and general welfare of its citizens; and
3. The City must maintain urban development standards for streets and other transportation facilities serving urban levels of development; and
4. The costs estimates for projects identified in Table 8 of the Transportation Plan are based on sound engineering principles;
