The Commissioners discussed the DAHP grant and their desire to put together an application. Katie Franks, from Bellingham, provided them with examples of previous grants that they received. Those previous applications are extremely helpful to the LHPC as the City puts together our own grant.

The Commissioners came to the conclusion that a baseline inventory of the potential historic structures/landmarks within the City will be the most valuable step forward. Dave will work with Patti to put a draft together before the next meeting. At the March meeting, Commissioners will have a chance to review and comment on that draft.
