The required insurance must be obtained and attached to this application before permit can be issued.

Vendor agrees to maintain, at their own expense, for the benefit of the City of Lynden, as additional insured, insurance against liability for damage or loss and against liability for personal injury or death, arising from acts or omissions of vendor, its agents and employees. Such policy or policies shall contain a provision whereby the City of Lynden must receive at least thirty (30) days prior written notice of any cancellation of Vendor's insurance coverage. Prior to the commencement of the Agreement, Vendor shall deliver to the City of Lynden certificates or binders evidencing the existence of the insurance required herein indicating the City as an additional insured. Failure to provide proof of the insurance at any time to the satisfaction of the City of Lynden shall be grounds for termination of this Agreement.

Vendor shall provide insurance coverage in amounts not less than the following:

- a. Combined single limit of one million dollars; **or**
- b. One million dollars per occurrence/two million dollars aggregate

Annual Permits:

In order to obtain a reoccurring/annual permit, the applicant must make a request to the City Administrator in writing no less than sixty days prior to the next event. Should the annual permit be granted, the applicant must inform the City Administrator, on an annual basis, of any changes between the previous year and the current year.

SPECIAL EVENTS FUN RUN SAFETY QUESTIONS

The City of Lynden Police Department is glad to assist you with your event as our manpower and call load allow. There are a few questions that may help you and the city prepare as you organize your event. Hopefully the following questions will spark additional ideas for you during your preparation. We would like to insure race day goes very smoothly and safely for everyone.

PLEASE REMEMBER THAT NO PERMANENT MARKINGS MAY BE MADE ON ANY CITY ROADWAYS OR FACILITIES.

- 1) If the route crosses another roadway at the beginning or the end of a race, how will traffic be controlled as the distance between stragglers/runners might be stretched significantly?
- 2) How will traffic be controlled as runners cross intersecting roadways? Can the course be altered to avoid intersections?
- 3) How will runners be instructed to remain out of the roadway during the race? How will the instruction be enforced?
- 4) Will there be spotters moving along the route on bikes at the front, and the rear as stragglers begin to spread the field?
- 5) Will the intersections or other areas along the course of the run be manned with volunteers/flaggers wearing traffic vests?
- 6) Will there be cones or other delineators marking the course in order to help contain the runners from gradually moving into the roadway?
- 7) If a roadway contains an "S" curve, runners will commonly try and straighten the curves by crossing the roadway. This obviously becomes a safety concern. How will this issue be addressed?
- 8) Will there be stations for refreshments as the runners move along the course that may cause a group to form, or become a traffic problem?

WE WISH YOU AND ALL THE ORGANIZERS A GREAT RACE DAY!
