

CITY OF LYNDEN

ADMINISTRATION DEPARTMENT
Mike Martin, City Administrator

April 7, 2020

To Whom it concerns:

There is a paramount value in having a healthy economy, and the City of Lynden acknowledges the vital contribution the building trades makes in creating and maintaining it in our community. This contribution will become increasingly important as the City emerges from the COVID-19 pandemic in the coming months.

For that reason, we encourage the building community to continue its work whenever it can be done prudently and safely. This especially applies to construction necessary to prevent "spoilage" or any damage to a structure due to inclement weather.

It is the City's policy to rely on the good judgement of the building community to keep its workers safe, and to ensure that any member of the public in the vicinity of a project is likewise kept safe. In these unique times, this includes "social distancing" whenever possible, along with all other common-sense practices.

With this letter I ask any official seeking to stop work on a construction site in the City of Lynden to contact me first, directly, at the numbers below. Until that conversation has taken place it is the City's policy that work continue, uninterrupted. This is the direction we have given builders working on projects in our City.

Sincerely,

A handwritten signature in blue ink that reads "Mike Martin".

Mike Martin
Lynden City Administrator
